

Professional reports from roofline to bottom line.

---

## Why Rooftop Reports?

We deliver clear, professional documentation of rooftop mechanical equipment - HVAC units, exhaust fans, makeup air systems, and more. Our photo rich PDF reports give building owners and facility managers visibility of every rooftop asset to reduce risk and plan maintenance confidently.

## Benefits

|                               |                                                                    |
|-------------------------------|--------------------------------------------------------------------|
| ● Comprehensive asset mapping | Each rooftop unit is identified, tagged, and photographed.         |
| ● Clear visual reporting      | High resolution photos and organized data in one professional PDF. |
| ● Actionable recommendations  | Condition notes and a prioritized next step list.                  |
| ● Independent documentation   | Ideal for insurance, leasing, and capital planning records.        |
| ● Simple, transparent pricing | Know what you are paying for - no surprises.                       |

---

## Pricing

|                 |          |                                                                                                            |
|-----------------|----------|------------------------------------------------------------------------------------------------------------|
| Small Facility  | \$2,000+ | Up to approx 5,000 sq ft. Includes roof map, photo documentation, findings, and a prioritized action plan. |
| Medium Facility | \$3,000+ | Approx 5,000 to 20,000 sq ft. Additional assets and complexity.                                            |
| Large / Campus  | Custom   | Multi building or specialized sites. We will scope and propose a fixed fee.                                |
